ORA Form 5522

CONFLICT OF INTEREST CERTIFICATION
NON-FEDERAL INVESTIGATORS

To protect the safety, rights, and welfare of research participants, promote research objectivity, and maintain the public's trust, the NASA IRB must consider actual and perceived conflicts of interest that may arise during the conduct of human subjects research.

This form should be completed by individuals engaged in human subjects research who are not federal employees. Federal employees, who are subject to additional government-wide ethical conduct regulations and statutes[i] should complete ORA Form 5521. Individuals who are not federal employees are responsible for following their own institution/employer's Conflict of Interest policies in addition to NASA policy. A new form must be promptly submitted to the NASA IRB whenever a new potential conflict is identified.

Please complete all the information below and retain a copy of this form for your records.

SECTION I: General Information

1. Name: _____	Email: _____
2. Institution/Employer: _____	Telephone: _____
3. Address: _____	

SECTION II: Financial Interests

Indicate by checking the box YES or NO if any of the financial interests or arrangements *reasonably* appear to be related to the research under the oversight of the NASA IRB. Applicability of these statements is inclusive of you, your spouse/partner, and dependent children. A new COI form must be promptly submitted to the NASA IRB whenever a new potential conflict is identified.

Yes	No	
☐	☐	**Financial arrangements whereby the value of the compensation could be influenced by the outcome of the study.** This could include, for example, compensation that is explicitly greater for a favorable outcome, or compensation to the investigator in the form of an equity interest in the study sponsor, or in the form of compensation tied to sales of a product, such as royalty interest. If yes, please describe:
☐	☐	**Significant payments of other sorts from the study sponsor, which have a monetary value greater than $25,000** to support activities of the investigator (e.g., a grant to fund ongoing research, compensation in the form of equipment, or retainers for ongoing consultation or honoraria). [ii] If yes, please describe:

Yes ☐ **No** ☐	**A significant financial related to the study.** Examples include, but are not limited to ownership interest, stock options, or other financial interest whose value cannot be readily determined through reference to public prices, or an equity/non-equity interest in a publicly or non- publicly traded company exceeding $5,000[1]. If yes, please describe:
Yes ☐ **No** ☐	A proprietary or financial interest in the test product such as a patent, trademark, copyright, or licensing agreement[iii]. If yes, please describe:
If you selected 'YES' to any of the above, you may be contacted by the NASA IRB Office to provide additional information.	

SECTION III: Non-Financial Disclosures

If you have any of the following non-financial disclosures, please describe. A new COI form must be promptly submitted to the NASA IRB whenever a new potential conflict is identified.

Yes ☐ **No** ☐	**Reimbursed or sponsored travel**(i.e., that which is paid on behalf of the investigator and not reimbursed to the investigator so that the exact monetary value may not be readily available) related to the investigator's responsibilities for a study.[iv] If yes, please describe: ** Does not include travel that is reimbursed or sponsored by a Federal, state, or local government agency, an institution of higher education as defined at 20 U.S.C.1001(a), an academic teaching hospital, or a research institute that is affiliated with an institution of higher education.*
Yes ☐ **No** ☐	**Roles as an executive, director, or employee of the study sponsor.** **NASA contract work does not require disclosure.** However, other connections to a non-NASA study sponsor that could be perceived as a conflict of interest should be disclosed. If yes, please describe:

[1] NASA GIC 23-07 defines "significant equity interest" as an equity interest that, when aggregated for the investigator and the investigator's spouse and dependent children, meets both of the following tests: (1) does not exceed $10,000 in value as determined through reference to public prices or other reasonable measures of fair market value and (2) does not represent more than a 5 percent ownership interest in any single entity; or Salaries, royalties, or other payments that, when aggregated for the investigator and the investigator's spouse and dependent children, are not expected to exceed $10,000 during the prior twelve-month period.

Yes	No	
☐	☐	Any non-financial interest which may unduly influence the design, conduct and/or reporting of the research. If yes, please describe:

If you selected 'YES' to any of the above, you may be contacted by the NASA IRB Office to provide additional information.

SECTION IV: Signature

I declare that the information provided on this form is, to the best of my knowledge and belief, true, correct, and complete. Furthermore, if my conflicts or financial interests and arrangements, or those of my spouse and dependent children, change from the information provided above during the course of a study, I will alert the NASA IRB promptly.
